

bim manager

Job Title Interior: BIM Manager

Department: BIM

Location: SE1 ONE

Salary: Competitive

Overview:

We are currently looking for an exceptional BIM Manager to join us here at tp bennett. You will play a critical role in Revit-authored BIM models to be more frequently and comprehensively audited, for the BIM content library structure to be elaborated upon and subsequently better managed, and for an element of user support to be provided.

You will actively contribute towards an industry leading BIM capability structure with specific focus on model auditing and content management, with a key aspiration to join the company BIM Director in presenting the structure at various industry events in mid / late 2019.

Key skills:

- Exceptional Revit capability with particular focus on model auditing and content creation
- Good understanding of UK building construction fundamentals
- An awareness of BIM process fundamentals (BS / PAS 1192 aligned)
- Strong communication skills with good written and spoken English
- Organised, hard-working, and self-disciplined with ability to take initiative
- Autodesk Revit: Advanced
- Autodesk Navisworks Manage: Intermediate
- Solibri Model Checker: Intermediate
- Revizto: Basic
- Unifi: Basic
- Commercial office / interior fit-out / retail / student residential
- RIBA Stages 3-4 as a minimum

- Minimum 5 years post-qualification

Desirable skills:

- Experience of working in a centralised support function
- Experience of speaking and presenting at industry events
- Use of Dynamo (visual programming tool)
- Supportive – want to support colleagues with the development of their knowledge and capability
- Confident – ability to enforce protocol in project team workshop environment
- Ambitious – drive to actively contribute towards developing an industry leading structure

If you are interested in applying for the role please send your cv to careers@tpbennett.com.
