

Job Title: Architectural Technologist / Technician

Location: London

Department: Interiors

Job Purpose:

You will be an experienced Architectural Technologist / Technician with proven Revit proficiency.

This is an exciting opportunity to join one of our Interiors Studios working for one of two of London's most prestigious projects, with key responsibilities and full exposure to all aspects of the project. Driven professionals who seek opportunity to further progress their career sought.

Key responsibilities and accountabilities:

- Required to work closely within a close knit project team & expected to positively contribute and communicate
- Assisting the Project Director on design documentation ensuring designs are Building Regulation compliant
- Primarily working in Stages 3 & 4 producing documentation for Tender & Construction
- Technical package drawing delivery including partitions, joinery & architectural metalwork required
- Updating and managing the Revit model regularly
- Coordination of consultant services drawings and models
- Minute taking & site reports
- Site visits to inspect the progress of the works
- Eventually liaise with contractor and specialist trade contractors
- Presence on site to monitor live projects and work with contractor teams to resolve queries

Qualifications, experience, & skills:

- Qualified Architectural Technologist or Technician
- Solid post qualification industry experience (Graduates with strong portfolios considered)
- Experience of working on large scale commercial projects desirable
- Demonstratable experience of all stages of a project with particular focus on RIBA Stage 3-5
- Experience of managing a complex Revit model and coordinating with other consultants
- Fully proficient in Revit, AutoCad and Microsoft Office
- Good working knowledge of other software, e.g. Word, Excel, Enscape
- Experience of NBS Software, InDesign, Photoshop, SketchUp desirable

Knowledge and attributes

- Enjoys preparing, developing & coordinating drawings and models to support a successful project transition from the design phase to on-site liaising with contractor teams
- A keen eye for detail and accuracy
- Proactive and self-motivated, with the ability to take initiative in response to direction from project leads, directors and Principals
- A team player, with a flexible and open attitude towards new ways of working and collaborating
